Over fifty years ago the name Stewart first appeared in the building industry. At the inception of this enterprise three definite objectives were established: first, to manufacture products of unsurpassed quality; second, to extend an understanding, helpful service to architects and engineers; third, to maintain cordial business relations with all those engaged in building.

Today the Stewart plant, located in Covington, Kentucky, across the Ohio River from Cincinnati, contains 350,000 square feet of floor space devoted solely to the manufacture of Stewart products. Here skilled craftsmen, Stewart-trained, at forge and anvil, fabricate Ornamental Iron for every building requirement in scores of standard designs, or to individual exclusive specifications.

Available to architects, without cost or obligation, is a new type of cooperation and complete advisory service. At your invitation we shall be glad to consult with you, to give you the benefit of our experience gained through over 50 years of intimate contact with the problems of architectural design and a thorough understanding and appreciation of Wrought Iron and its possibilities.

THE STEWART IRON WORKS COMPANY,
INCORPORATED

CINCINNATI, OHIO

"The World's Greatest Fence Builders Since 1886"

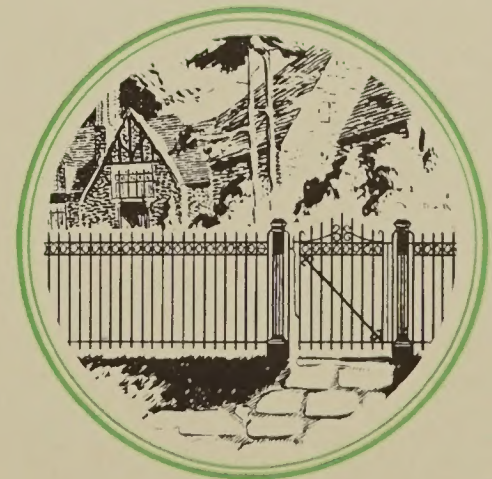

Stewart FENCES

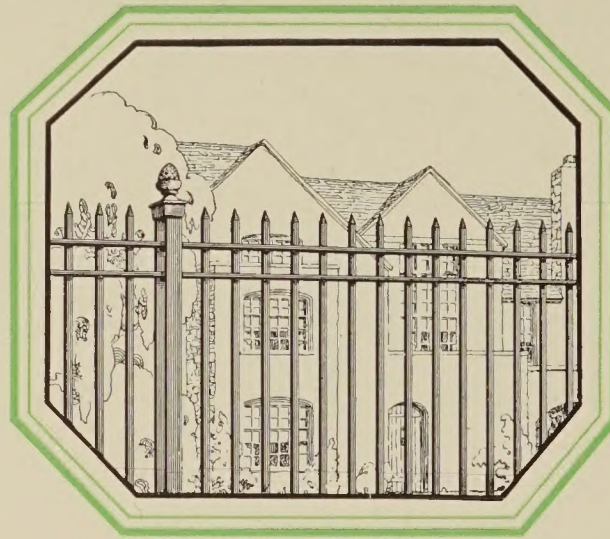

Foreword

In this fourth edition of the Stewart Book of Designs a number of more recent unusual installations are shown. The most casual study of these installations will prove of interest to architects and builders as illustrating the great possibilities offered by Ornamental Iron in creating an atmosphere of distinction, even though its use be limited to a single Stair Rail.

Stewart Ornamental Iron gives permanent expression to the creative skill of the architect and the years serve merely to enhance its beauty. Stewart Iron Fences and Entrance Gates add a dignity to the country home or estate that can be gained in no other way — and similarly the modest small house is set off to advantage by a Stewart Iron or Chain Link Wire Fence in keeping with its surroundings and architectural design.

But even more, a Stewart Fence is unfailing protection against trespass, vandalism and invasion; seclusion is assured; lawns and costly plantings safeguarded; property values increased. Whatever the need, there is a Stewart Iron or Chain Link Wire Fence to meet your requirements — a Stewart design to fit every budget.

S STEWART FACILITIES COVER EVERY FENCING NEED

Exclusive structural superiorities, beauty in design, expert craftsmanship, unquestioned quality and rigid adherence to constructional details, unmatched durability and extra years of trouble-free service have merited and maintained the leadership enjoyed by Stewart Fences and Ornamental Iron in the building field.

On the following pages are illustrated Iron and Chain Link Wire Fence, Plain and Ornamental Gates, Interior and Exterior Railings, Bracket and Pier Lanterns, Stable Fitments, Lawn Furniture, Vases and other products. The inside back cover contains a partial listing of the Stewart Line. Literature on any of these products is available without cost or obligation. Stewart sales and erection service in all principal cities.

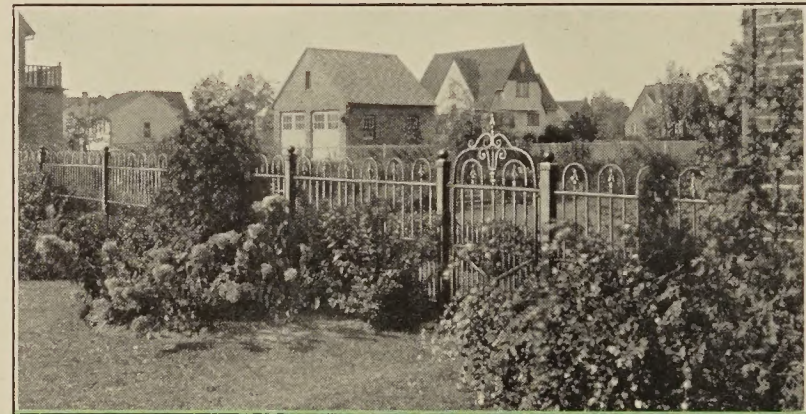

PLATE D-2-1—This installation bespeaks the protecting influence afforded shrubbery and plantings by Stewart Iron Fence. One of our standard designs.

● PLATE D-3 ➡

Beauty, refinement, distinction and substantialness are characteristically predominant in the custom built Texas installation shown at the right.

● PLATE D-4-1

The simplicity and beauty of this inexpensive design makes it attractive. A wide range of stock designs are available.

● PLATE D-4-2

Beautiful effects through the judicious use of Ornamental Iron Gates between capped brick piers at Lockport, N. Y.

● PLATE D-5-1

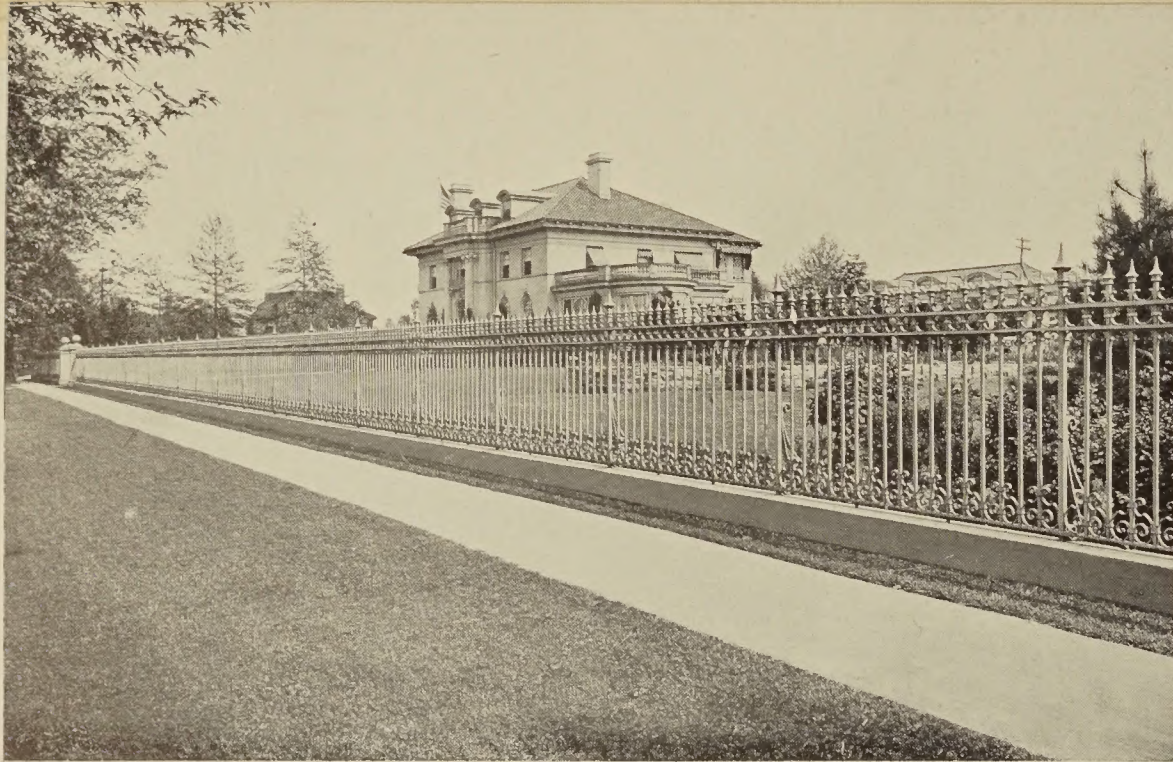

An attractive straight line Ornamented Gate gives an air of distinction to this Columbus, Ohio, installation.

● PLATE D-5-2

This installation at Chicago, designed to conform to the architectural setting, accentuates its distinctive appearance.

● PLATE D-7 ➡

The illustration on page seven clearly demonstrates how Ornamental Iron Gates enhance the beauty of this Texas estate.

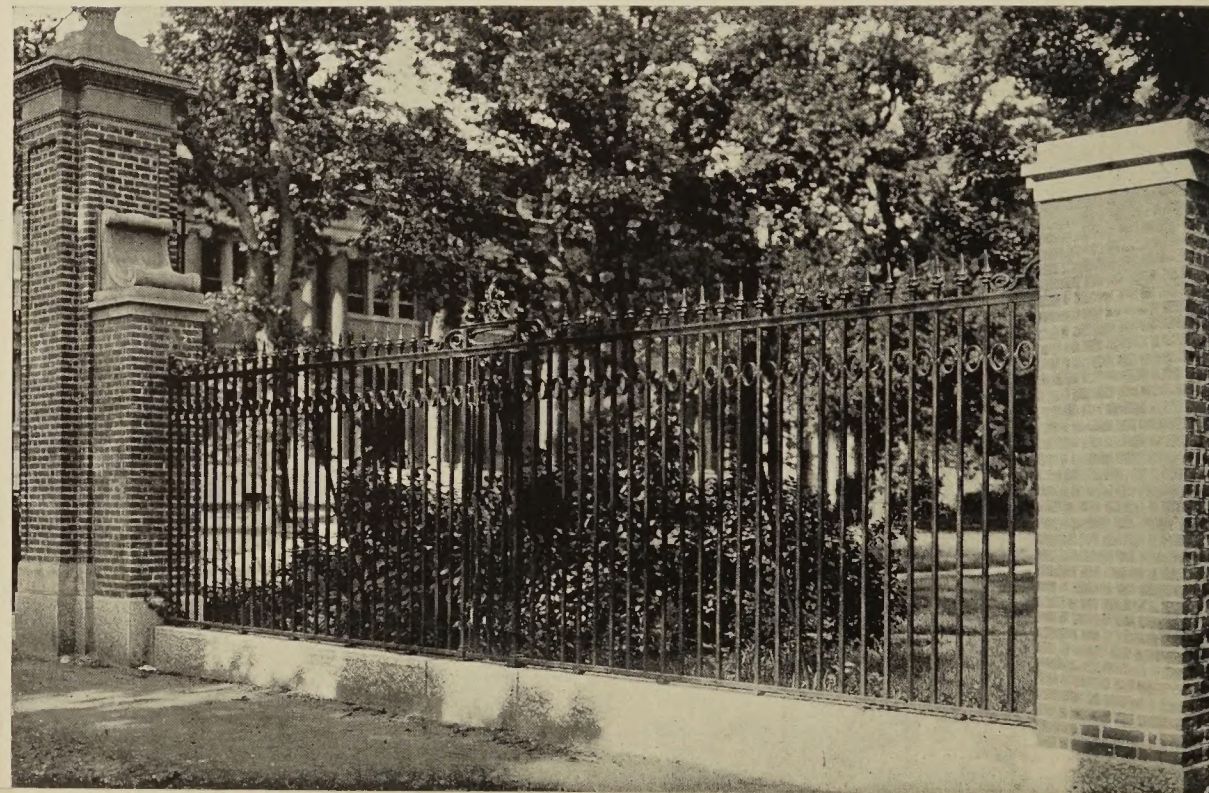

● PLATE D-6-1

Ornamental Iron Fence set in concrete coping adds immeasurably to the beauty of this Lakewood, Ohio, estate.

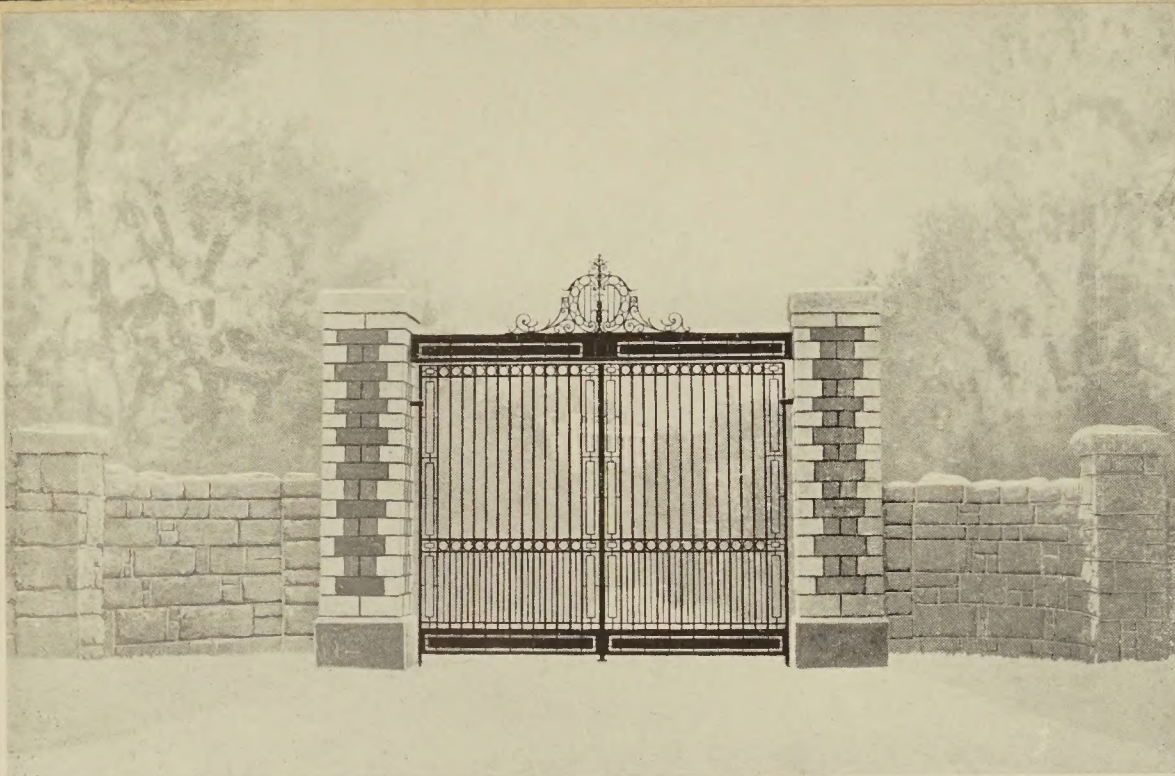

● PLATE D-6-2

Another outstanding Ornamental Iron Fence surrounds this property located at Cambridge, Mass.

● PLATE D-8-1

A plain yet effective Entrance Gate in keeping with the stone wall which surrounds this Hendersonville, N.C., property.

● PLATE D-8-2

Imposing Entrance and Walk Gates add dignity, distinction and protection to this Ypsilanti, Michigan, cemetery.

● PLATE D-9-1

At Winnetka, Illinois, the artistic beauty of Entrance and Walk Gates is in conformity with the architectural theme.

● PLATE D-9-2

Stewart Ornamental Iron Fence installed at the home of the Chicago White Sox. Note insignia in the panel posts.

● PLATE D-11 ➡

An outstanding installation. Ornamental Iron Fence, Posts, Entrance Gate and Monogram Shield make this Jackson, Michigan, picture complete.

● PLATE D-10-1

The beauty of this setting at Jackson, Tenn., is accentuated by appropriately designed Gates. Note Stewart Lanterns. (See page 43 for further details.)

Stewart
Lanterns

● PLATE D-10-2

An example of dignified protection afforded industrial property by Iron Fence and Gates. Procter & Gamble Co., Cincinnati, Ohio.

PLATE D-12-1

This installation at Auburn, N.Y., demonstrates the effectiveness of well balanced ornamentation. Note Pier Lanterns.

PLATE D-12-2

The delicate tracery of this hand wrought Ornamental Iron Entrance Gate and Fence assures distinction which could not possibly be gained otherwise.

● PLATE D-13-1

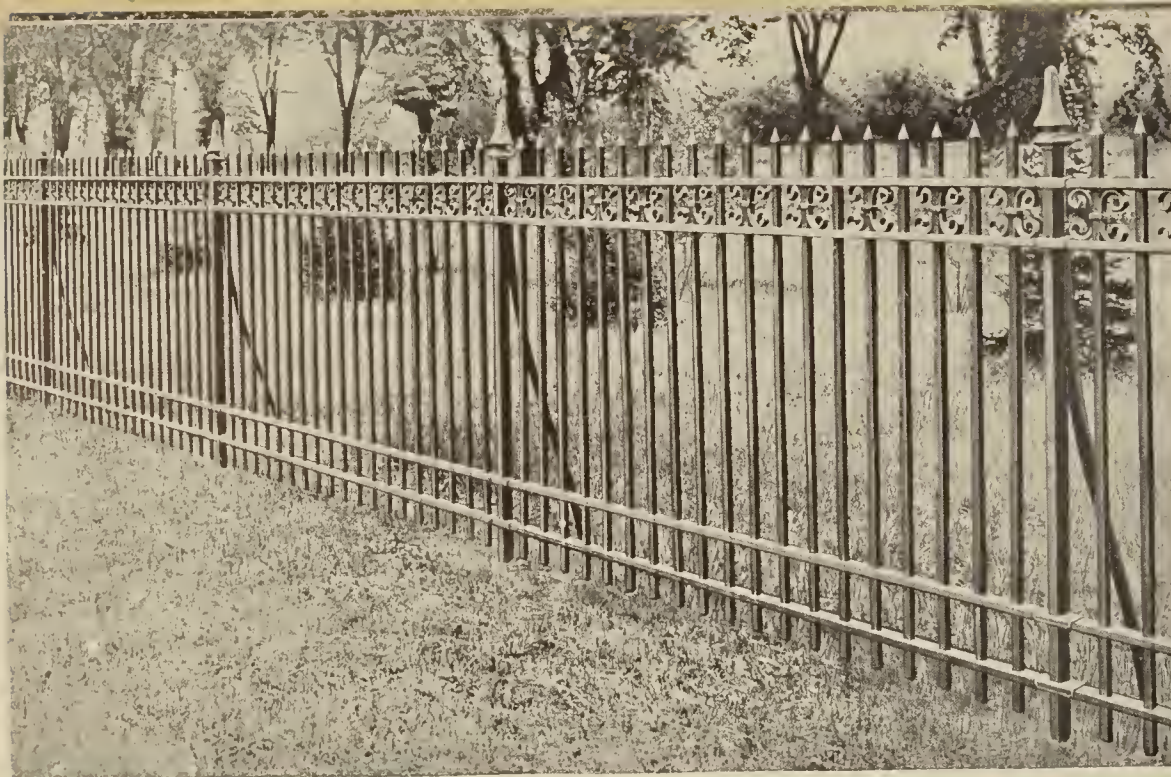

Where utility, attractiveness and simplicity are desired, this practical yet beautiful design is recommended.

● PLATE D-13-2

Ornamental Iron Fence surrounding a Syracuse, N. Y., stadium bespeaks substantialness, permanence and positive protection to spectators.

● PLATE D-15 ➔

The beauty of this Erie, Pa., installation speaks for itself. Stewart provides the final touch to the landscaper's art.

● PLATE D-14-1

One of the widely used Ornamental Iron Fence designs which adds beauty and distinction to property.

● PLATE D-14-2

Mounted on stone coping this Iron Picket Fence proves an effective barrier against trespass, and adds materially to the ornamentation of the property.

PLATE D-16-1

Zanesville, Ohio. An attractive Ornamental Iron Driveway Gate surmounted by a Stewart Lantern and Arch.

PLATE D-16-2

Mount Olivet Cemetery, Detroit, Michigan. A close-up of Ornamental Iron Fence detail. Donaldson & Meier, Detroit, Architects. (See pages 24 and 25.)

● PLATE D-17-1

This installation at New Orleans, La., was designed to conform to the architectural theme. Note crosses on each Gate.

● PLATE D-17-2

A school installation at Bennettsville, S. C. Note step down condition at left. Special or intricate conditions are readily handled by Stewart.

PLATE D-18-1

Ocean View Cemetery, located at Staten Island, N. Y. One of the many Stewart installations showing adaptation of bronze lettering to Entrance Gate.

PLATE D-18-2

A decided addition to the beauty of this colonial home is the simple, yet attractive, Entrance Gate and Fence.

● PLATE D-19-1

An outstanding installation, Highland Cemetery, Covington, Kentucky. Illustration shows Stewart Bronze Tablets for stone piers and Plaques for Gates.

● PLATE D-19-2

Hillcrest Cemetery, Savannah, Ga. Another Stewart installation. Many stock designs also available.

PLATE D-21

Ornamental Iron at its best . . . Entrance and Walk Gates, Newel Posts, Fence and Lanterns . . . Louisville, Kentucky.

PLATE D-20-1

A Stewart Lantern and Arch surmounting the entrance adds much to the appearance of this driveway.

PLATE D-20-2

Beauty of design, distinctive appearance and dignity dominate this hand wrought Ornamental Iron Entrance.

● PLATE D-22-1

Ornamental Iron Driveway Gate between stone piers and wall affords a beautiful adjunct to the setting.

● PLATE D-22-2

Beautification of church property has long been one of Stewart's accomplishments. This Washington, D. C., installation is an example.

● PLATE D-23-1

Stewart Ornamental Iron Gates guard the entrance to Hillcrest Cemetery, Lexington, Kentucky. Detail in phantom view.

● PLATE D-23-2

The illustration shows a Stewart Ornamental Iron Fence and Bracket Lantern installation. (See page 13 for complete lantern details and specifications.)

PLATE D-24—D-25

Mount Olivet Cemetery, Detroit, Michigan. More than 7,000 feet of Iron Fence was used in this recent Stewart installation. Ornamental Box Newel Posts within the line of fence contribute largely to its outstanding appearance. Donaldson & Meier, Detroit, Architects. Close-up of fence detail is shown on page 16, Plate D-16-2.

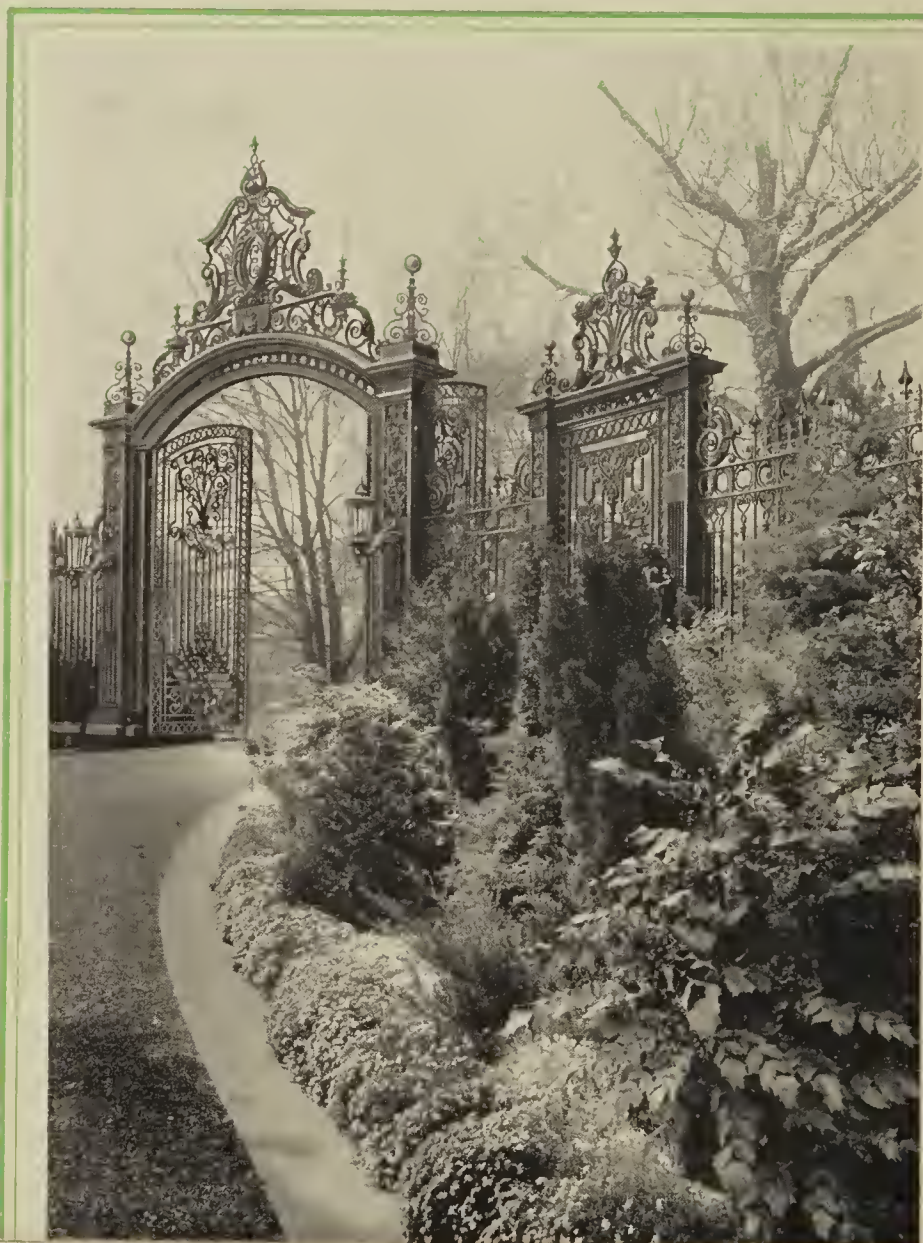

PLATE D-26-1

A square picket, three rail Fence ornamented by Panel Posts instead of conventional line posts.

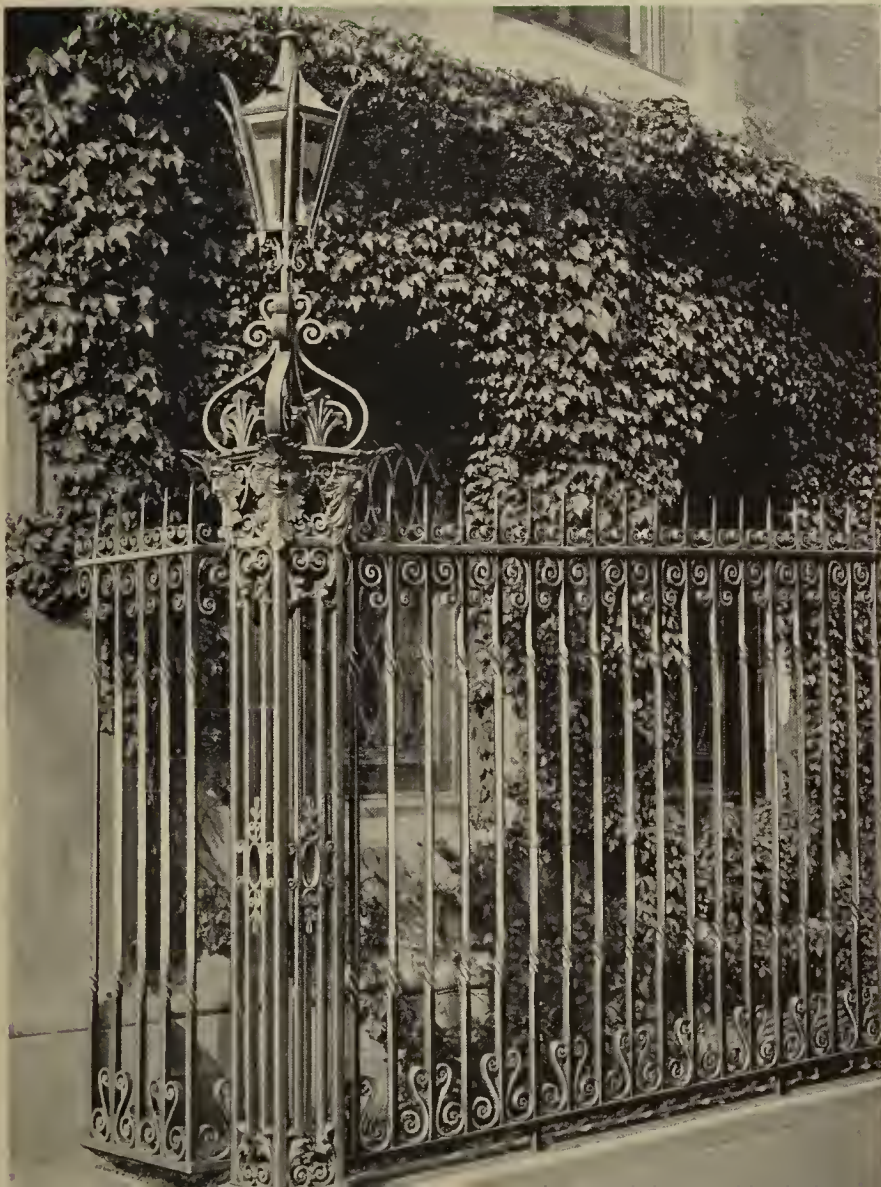

PLATE D-26-2

Decorative beauty and distinction as well as utility is the keynote of this unusually imposing entrance.

● PLATE D-27-1

An attractive estate installation at Kansas City. There is a Stewart product for every need.

● PLATE D-27-2

Close-up of Ornamental Iron Fence and Post detail with Lantern. Another special installation.

● PLATE D-28-1

Petersborough, Ontario. Stewart Sales Service is international, as this Canadian memorial park installation indicates.

● PLATE D-28-2

A real homey fence at Buffalo, N. Y., protects trees and shrubs. Many stock designs are available.

● PLATE D-29-1

This installation, Saint Boniface Cemetery, Lafayette, Indiana, demonstrates the adaptation of Stewart designs to well planned surroundings.

● PLATE D-29-2

Stewart Fence safeguards beauty and assures seclusion for Blacksher's Garden, Mobile, Ala.

PLATE D-30-1

At this Lansing, Michigan home, Ornamental Iron Fence is used for side boundary as well as front property line.

PLATE D-30-2

Entrance, Walk Gates and Wall Fence were designed to conform to the architectural setting of this Philadelphia institution.

● PLATE D-31-1

The substantialness of this Stewart Fence and Entrance Gate argues well for protection at this government building in Chicago.

● PLATE D-31-2

The Iron Fence here illustrated provides an effective barrier against trespass and vandalism and beautifies as well.

● PLATE D-32-1

Stewart has the ability to conceive, and build Fences or Entrance Gates to meet the most exacting requirements. National Park College, Forest Glen, Md.

● PLATE D-32-2

Entrance Gates and Fence by Stewart are an asset to homes of distinction. A Buffalo, N. Y., installation.

● PLATE D-33-1

Here we see an outstanding example of the artistry and skill of Stewart craftsmen. General Electric Company plant located at Cleveland, Ohio.

● PLATE D-33-2

At Erie, Pa., these Stewart Ornamental Iron Driveway Entrance and Walk Gates impart dignity and character.

● PLATE D-34

Whether it be residential, institutional, industrial or public property, Stewart will adapt stock designs or fabricate special creations to conform to every type of architecture or landscape effect. Illustrated at the left, a Cambridge, Mass., installation.

Stewart
FENCES

● PLATE D-35

The artistic Entrance Gate shown at the right was created especially for this installation. Here again we have an illustration of Stewart ability to bring into reality the most minute details of the architect's design. This is the entrance to a Pittsburgh estate.

Stewart
FENCES

● PLATE D-36-1

At Fort Wayne this Ornamental Iron Fence assures privacy, seclusion and protection against careless or malicious trespassing.

● PLATE D-36-2

A low Iron Fence erected at the side of this Buffalo, N. Y., property affords protection for the hedge. A standard design.

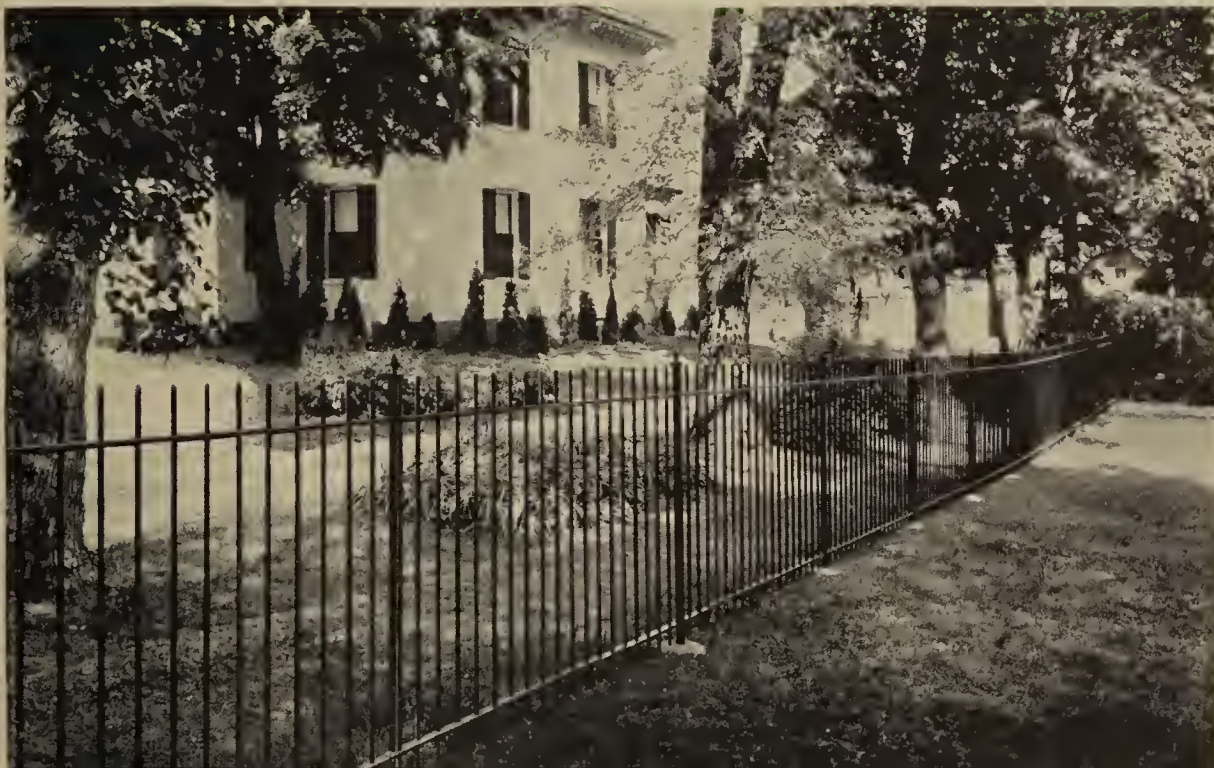

● PLATE D-37-1

An attractive Ornamental Iron Fence gives permanent, trouble-free, continuous protection to this Memphis institution.

● PLATE D-37-2

A low Iron Fence is ideal for property side lines. This Fence separates but does not offend. Cincinnati, Ohio, installation.

● PLATE D-38-1

A Stewart Fence affords seclusion and protection for costly plantings. Estate of Charles M. Schwab, Loretto Road, Pa.

● PLATE D-38-2

An Artistic and Ornamental Driveway and Walk Gate design adds immeasurably to the appearance of this Iowa estate.

● PLATE D-39-1

While simplicity is the keynote of this installation, nevertheless it accentuates the attractiveness of the property.

● PLATE D-39-2

This design adapts itself admirably to the surroundings, protects lawns and shrubs and assures privacy.

● PLATE D-40-1

A Stewart Fence protects school children from ever-present traffic hazards and assures freedom from trespassing and vandalism.

● PLATE D-40-2

The famous Belle Isle Bridge, linking Detroit with beautiful Belle Isle is protected by Stewart Railing.

● PLATE D-41-1

Covington, Kentucky. Stewart Chain Link Wire Fence completely surrounds these tennis courts. Illustration below shows backstop only.

● PLATE D-41-2

Tennis Court Backstops of Chain Link Wire. Literature fully describing Tennis Court Fence will be sent on request.

● PLATE D-42-1

Style OTH Chain Link Wire Fence showing
all beam construction, an exclusive Stewart
feature. Ideal for side and rear lines.

● PLATE D-42-2

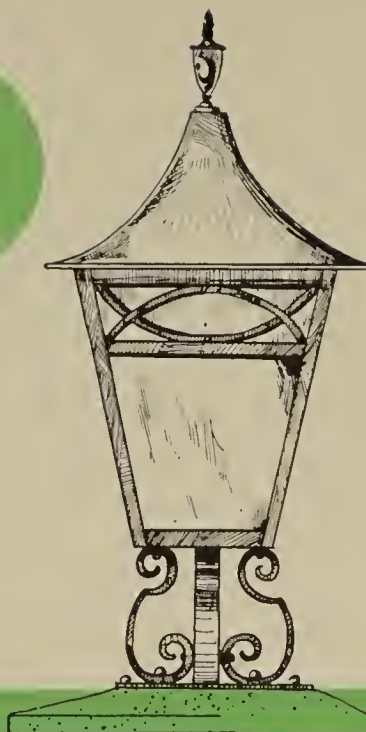

Bellevue, Kentucky. A typical Stewart
Non-Climbable Chain Link Wire Fence
installation. Wire Fence catalog sent on
request.

Interior and Exterior RAILINGS

Illustrated on this and the facing page are a number of Interior and Exterior Railing installations by Stewart. They clearly demonstrate the beautiful effects made possible through the use of distinctive Ornamental Iron Work.

Stewart Ornamental Iron Work is the result of more than 50 years of manufacturing experience, constant research, and close association with architects and builders. In cooperation with many of the nation's leading architects it

Plate D-44-1—Relief from the monotony of the plain square picket Railing is afforded by means of ornamentation in the center of each panel.

Plate D-44-2—Ornamental Railings become things of delicate beauty when executed by Stewart.

Plate D-44-3—An interesting example of the atmosphere of distinction and attractiveness expressed by well designed and carefully executed Iron Work. Greensburg, Pa.

Plate D-44-4—Ornamental Panel Posts permit a wide range of decorative possibilities. Also note center ornaments. Greenville, N. C.

has been our privilege to fabricate numerous outstanding Ornamental Iron Railing installations. We recognize and fully appreciate our obligation to architects and are capable of faithfully reproducing the most minute details of every specification.

Stewart manufactures many standard designs or cooperates in creating exclusive patterns to harmonize with every conceivable type of architecture.

Plain and Ornamental Railings are available in a wide range of materials and finishes. Send for catalog fully covering the subject of Railings.

Plate D-45-1 — New, decorative and refreshing effects are obtained through the use of Ornamental Railings. Greenville, N. C.

Plate D-45-2 — This design employs straight line ornamentation. Gates are of harmonious design. Asheville, N. C.

Plate D-45-3 — Frequently simplicity is the keynote of a design — especially when combined with other decorative Iron Work such as Lanterns, etc.

Plate D-45-4 — Heavy ornamentation, when properly applied, is always in good taste. Installation at Peoria, Ill.

INTERIOR and EXTERIOR GATES and GRILLES

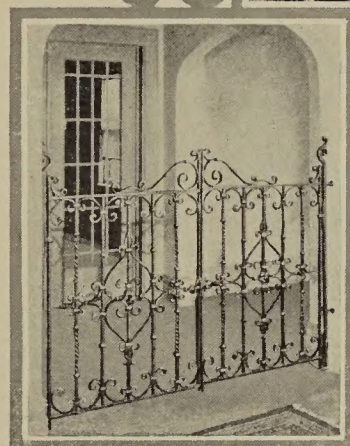

Wrought Iron Well Heads

Through more than a half century Stewart has created and produced interior and exterior gates, meeting the requirements of every conceivable type of architecture and interior decoration. Illustrated on this page are but a few of the great number of designs offered. Fitting the design into the door or archway to produce the most pleasing, harmonious and distinguished effect is a major part of Stewart complete service.

Interior Gate
Design D-47-3

Interior Gate
Design D-47-2

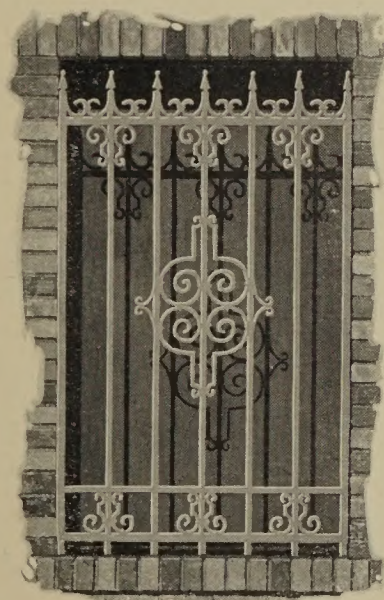

Interior Gate
Design D-47-4

Stewart Interior Ornamental Gates may be had in iron or bronze. Initials, or numbers, family crest, figures, or other individual ornamentation may be included in the design. Stewart craftsmen have the ability to give expression to the creative skill of the architect.

Stewart Interior Gates add beauty, dignity and charm to your home.

Upon request, we will gladly furnish prints of stock gate designs. Where special treatment is required, Stewart will submit suggestions. Avail yourself of this service . . . there is no obligation whatever.

We are always happy to cooperate with architects and agree to faithfully reproduce the most intricate design for specific installations.

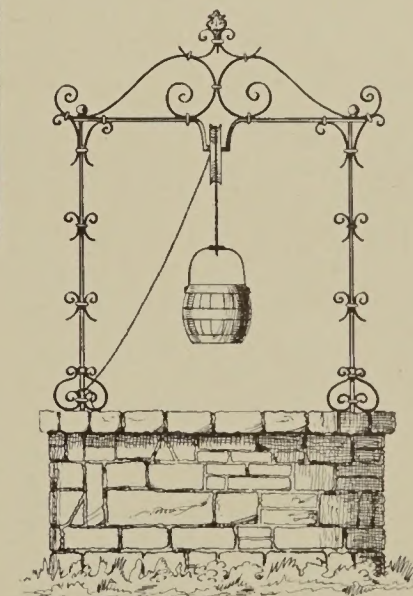

Window Grille
Design D-47-1

ARTISTIC . . . USEFUL . . . ENDURING

Stewart Wrought Iron Grilles are both a protection and an ornamentation for accessible windows in private and public buildings. They are in great demand with home owners who wish protection for their families, but do not want to give their homes the appearance of a jail. Write for estimates and designs for Ornamental Grilles. We make simple designs for cellar and back area windows, and other openings where the use of plain grille will not detract from the appearance of your building.

When requesting prices on stock designs or estimates and sketches for special creations, please be sure to send full information. For Interior or Exterior Gates send the size of the door or archway openings; for Grille Work, the size and shape of the window or other opening where the Grille is to be used. This will aid in handling your inquiry quickly and accurately.
